PROFESSIONAL SUMMARY

Final-year BSc (Hons) Computing student with hands-on internship experience in backend development using Django, PostgreSQL, Docker, and REST APIs. Experienced in building scalable web applications and full-stack projects using FastAPI, React, and PostgreSQL. Passionate about backend engineering, problem-solving, and continuously learning modern software development practices.

EXPERIENCE

Software Developer Intern — Nvolve Pvt. Ltd

Aug 2025 – Nov 2025

- Developed and tested RESTful APIs using Django and PostgreSQL.
- Worked with Docker-based development environments for deployment and testing.
- Implemented asynchronous task handling using Celery for email sending and report exports.
- Performed PostgreSQL database backup and restoration within Docker containers.
- Collaborated using Git and GitHub for version control and project workflow management.
- Participated in debugging, QA testing, and backend issue resolution.

SKILLS

Technical Skills

- Languages: Python, JavaScript, Java
- Backend: Django, FastAPI
- Frontend: React, HTML, CSS
- Databases: PostgreSQL, MySQL, MongoDB
- Tools & Technologies: Docker, Git, GitHub, Postman, VS Code, PyCharm

Soft Skills

- Communication
- Team Collaboration
- Problem-Solving
- Critical Thinking
- Time Management
- Adaptability

PROJECTS

Personal Projects

- **DataViz: Data Visualization and Analytics Platform**

Developed a full-stack web application for dataset upload, cleaning, exploratory analysis, and chart generation. Built a React + TypeScript frontend with a FastAPI backend, PostgreSQL database, JWT authentication, email OTP verification, Google OAuth, Google Drive dataset import, collaborative workspaces, chart export, and an ML-based chart recommendation system using scikit-learn.

- **Flipkart Data Scrapping**

Developed a project to extract comprehensive details of all mobile phones currently available for sale on Flipkart. The project involved web scraping techniques to collect product information such as model names, specifications, prices, and ratings for data analysis and comparison purposes.

- **Technical Blogs Platform**

Developed a full-stack web application that enables users to register, log in, and create technical blog posts. Implemented Django-based authentication, dynamic content rendering, and a responsive user interface using Bootstrap.

- **Digital Device Store APIs**

Built a RESTful API backend for managing digital devices using Django REST Framework. Included full CRUD operations, Swagger/ReDoc API documentation, and containerized deployment using Docker and Docker Compose.

Academic Projects

- **Onez – E-commerce Website**

This project demonstrates a dynamic e-commerce web application named "Onez" developed using Java EE technologies. It includes user interaction, structured backend routing with servlets, frontend components, and SQL database connectivity. Designed for educational purposes, the project showcases end-to-end development from product display to deployment using Apache Tomcat.

- **Data Analysis Project – NYC 311 Complaints**

An academic data science project that investigates public service complaints recorded by the NYC 311 system. The project focuses on identifying complaint trends, geographic patterns, and response efficiency through data preparation, visualization, and statistical testing.

- **Database Design and Querying Project**

A structured database project based on designing, implementing, and querying a relational database system. It includes the creation of an ER diagram, table schemas, and advanced SQL operations to simulate real-world enterprise data management and reporting.

EDUCATION

BSc. (Hons) Computing

2023-Present

Islington College
London Metropolitan University
Kamal Marga, Kathmandu 44600

School Leaving Certificate (SLC)

2021-2023

Trinity International SS & College
National Examinations Board
Dillibazar Height, Kathmandu

School Education Examination (SEE)

2021

KMC School
National Examinations Board
Buddhanagar, Kathmandu

TRAINING & CERTIFICATIONS

Django Essential Training - LinkedIn Learning	2025
Learning Docker - LinkedIn Learning	2025
Certificate of Participation – NASA International Space Apps Challenge	2025
Certificate of Participation – Islington Hackathon	2025
<u>AWS Cloud Practitioner</u>	2024
<u>AWS Academy Machine Learning for Natural Language Processing</u>	2024
<u>AWS Academy Machine Learning Foundations</u>	2024
<u>AWS Academy Data Engineering</u>	2024
<u>AWS Academy Cloud Foundations</u>	2024
Python and Django – Broadway Infosys	2020
